TECHNICAL SKILLS

- Programming - Python (Basic)
- Frameworks - Basic Knowledge of Django/Flask
- Databases - MySQL , MongoDB(Basic)
- Concepts - DSA(Basic), OOP basics
- Tools - Git(Basic) , MS Excel

Working on a ride data analysis project using SQL and Python, focusing on extracting insights like demand patterns, pricing trends, and platform comparison (OLA vs Uber).

PROFILE

I'm currently pursuing B.Tech (CSBS) along with a BS in Data Science, and I'm looking for a Python internship where I can work on real-world projects and learn by doing. I have a basic understanding of Python, data structures, and databases, and I'm familiar with frameworks like Django/Flask at a beginner level. I enjoy working in teams, contributing ideas, and I'm confident with presentations and content creation through my role in my college E-Cell core team. With this opportunity, I'm eager to strengthen my coding skills, work on live projects, and gain practical development experience.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Business Systems (CSBS) From SOIT , RGPV

BS in Data Science and Applications (Online Degree)

Indian Institute of Technology Madras

Current level-Foundation
